Lessons in Global Leadership

Online Interactive Event

FRIDAY, SEPTEMBER 24 11:00 AM - 12:00PM

Global leadership during a pandemic is unchartered territory for any CEO of our time. However, with St. Louis's own Arnold Donald at the helm, Carnival, the largest cruise line in the world, appears to have set sail for calmer waters. Demonstrating remarkable resilience and financial fortitude, the company has emerged from the COVID-19 crisis perhaps, stronger than ever. How have they managed to stay on an even keel?

Join us for Growing Global 2021 and learn how you can apply these Lessons in Global Leadership to your situation.

We invite you to be a Growing Global sponsor and to align your brand with the community's premier event for international business.
