

# Understanding the Fundamentals of Export Controls

Export compliance regulations apply to any U.S. company, large or small involved in exporting products outside the USA. This webinar provides you a chance to learn about or get reacquainted with a variety of export control regulations that if not followed, could lead to substantial penalties.

Businesses that are already exporting or are planning to start exporting need to follow some basic steps to ensure they are compliant with U.S. export control regulations. While the information provided in this webinar is by no means all inclusive, it should provide companies with a starting point for implementing an export compliance plan.

## Join this webinar to learn about:

- Properly Classifying Your Products for Export
- Sanctioned Destinations (Country Specific Sanctions and Embargoes)
- Screening All Parties Involved in the Export Transaction
- Identifying Red Flags
- Deemed Exports
- Anti-Boycott Compliance
- Compliant Documentation and Record Keeping
