

The Bureau of Industry and Security

Co-sponsored by The Missouri District Export Council present

“Complying with U.S. Export Controls”

April 9-10, St. Louis MO

This two-day program is led by BIS's professional counseling staff and provides an in-depth examination of the Export Administration Regulations (EAR). The program will cover the information exporters need to know to comply with U.S. export control requirements under these regulations. We will focus on:

- **What items and activities are subject to the EAR;**
- **Steps to take to determine the export licensing requirements for your item;**
- **How to determine your export control classification number (ECCN);**
- **When you can export or reexport without applying for a license; Automated Export System (AES) procedures and requirements;**
- **Sanctions programs;**
- **Export Compliance Program (ECP) concepts; and**
- **Real-life examples in applying this information.**

Presenters will conduct "hands-on" exercises that will prepare you to apply the regulations to your own company's export activities. This one-of-a-kind program is well suited for those who need a comprehensive understanding of their obligations under the EAR.

About the Instructors: The instructors are experienced export policy specialists, and enforcement personnel from BIS's field offices.

AGENDA for both days
